1.0 General Information

1.1 Introduction to Info Source

Info Source: Sources of Federal Government and Employee Information provides information about the functions, programs, activities and related information holdings of government institutions subject to the Access to Information Act and the Privacy Act. It provides individuals and employees of the government (current and former) with relevant information to access personal information about themselves held by government institutions subject to the Privacy Act and to exercise their rights under the Privacy Act.

The Introduction to Info Source: Sources of Federal Government and Employee Information and an index of institutions subject to the Access to Information Act and the Privacy Act are available centrally.

The Access to Information Act and the Privacy Act assign overall responsibility to the President of Treasury Board (as the designated Minister) for the government-wide administration of the legislation.

1.2 Background

Canada has long recognized the hardship, suffering and sacrifice experienced by Veterans, Canadian Armed Forces personnel, civilians and their families during our nation’s periods of armed conflict and peacekeeping.

The Department of Veterans Affairs Act became law in 1944. The Act forms the basis of the Department’s mandate for Veterans Affairs Canada (VAC), enabling Veterans Affairs Canada to offer a wide range of programs and services to support the health and wellness of its clients. VAC has continually evolved to meet the changing needs of modern-day Canadian Armed Forces members and Veterans. As a result, in 2006 the Government of Canada enacted the Canadian Forces Members and Veterans Re-establishment and Compensation Act, better known as the New Veterans Charter (NVC). The NVC was designed to give Canadian Armed Forces (CAF) Veterans and their families access to services and programs that would meet their individual needs.

The Veterans Affairs Portfolio consists of Veterans Affairs Canada (or the Department), the Veterans Review and Appeal Board and the Office of the Veterans Ombudsman. Veterans Affairs Canada reports to Parliament through the Minister of Veterans Affairs. The Veterans Ombudsman is an independent officer who reports directly to the Minister of Veterans Affairs. The Veterans Review and Appeal Board reports to Parliament through the Minister of Veterans Affairs. Information on the Veterans Review and Appeal Board is reported in a separate chapter in Info Source.
1.3 Responsibilities

The *Department of Veterans Affairs Act* is the Act that establishes the Department of Veterans Affairs and mandates the Minister to direct administration of services and benefits under the authority of various legislative and regulatory enactments. The Act charges the Minister of Veterans Affairs with responsibility for: "the care, treatment or re-establishment in civil life of any person who served in the Canadian Forces or merchant navy or in the naval, army or air forces or merchant navies of Her Majesty, of any person who has otherwise engaged in pursuits relating to war, and of any other person designated . . . , and the care of the dependants or survivors of any person referred to . . .”

Veterans Affairs Canada’s mission is “to provide exemplary, client-centred services and benefits that respond to the needs of Veterans, our other clients and their families, in recognition of their services to Canada; and to keep the memory of their achievements and sacrifices alive for all Canadians.”

Veterans Affairs Canada offers a wide range of programs and services to support the health and wellness of its clients. Veterans Affairs Canada’s clients include: traditional war service Veterans from the First and Second World Wars and the Korean War; Merchant Navy Veterans; people who lived in Canada but enlisted in the armed forces of other countries; former and, in certain cases, current members of the Canadian Armed Forces (CAF), including those who served in special duty areas and in peacekeeping; certain civilians; and survivors and dependants of the foregoing groups.

Veterans Affairs Canada also administers, on behalf of the Royal Canadian Mounted Police, disability pensions and health care benefits to certain still-serving and former members of the Royal Canadian Mounted Police.

As well, since 2006, the New Veterans Charter (NVC) provides support to Canadian Armed Forces Veterans and their families to ease their transition to civilian life through access to a suite of programs which includes rehabilitation, health benefits, career transition services, financial support, and disability awards, including death benefits.

Through the Canada Remembers Program, Veterans Affairs Canada keeps alive the achievements and sacrifices made by those who served Canada in times of war, military conflict and peace and it promotes an understanding of the significance of these efforts in Canadian life as we know it today. The Canada Remembers Program includes: programs that develop and share an array of historical and learning resources; funding remembrance activities throughout Canada, including the construction and restoration of memorials; maintaining cemeteries and grave markers and 14 European memorial sites; providing funeral and burial benefits; and leading and supporting commemorative ceremonies and events, nationally and internationally.
The Bureau of Pensions Advocates provides free legal advice and representation for individuals dissatisfied with decisions rendered by VAC regarding their disability awards and pensions.

The Office of the Veterans Ombudsman works to ensure the fair treatment of Veterans, their representatives and their families, in accordance with the Veterans Bill of Rights.

Veterans Affairs Canada was responsible for the administration of programs related to The Soldier Settlement Act and the Veterans’ Land Act. The Soldier Settlement Act (1919), administered by Veterans Affairs since 1944, was enacted to assist eligible World War I Veterans to become re-established in civilian life as farmers by providing them with land and/or financial assistance in the form of repayable loans for specified purposes such as the purchase of land, livestock or farm equipment. The Veterans’ Land Administration (VLA) was established in 1942 under the Veterans’ Land Act, which was part of a rehabilitation package for returning servicemen to help them settle in Canada as full-time farmers, part-time farmers or commercial fishermen.

2.0 Institutional Functions, Programs and Activities

2.1 Institution-Specific Content

2.1.1 Canada Remembers Program

Canadian Veterans and those who died in service have made valuable contributions to the development of Canada. Under the authority of Privy Council Order 1965-688, this program ensures that Veterans and those who died in service are honoured and the memory of their sacrifices and achievements are preserved. Canada Remembers activities promote the following outcomes: Canadians are knowledgeable about their efforts; Veterans are publicly recognized for their service; communities and other groups lead remembrance activities; symbols erected to their memory are maintained in perpetuity; and, eligible Veterans receive dignified funerals and burials. Encouraging pride in our shared military history, celebrating the contributions and acknowledging the sacrifices of those who served, and preserving symbols to mark their courage all contribute to the Government of Canada’s outcome of a vibrant Canadian culture and heritage.

Ceremonies and Events

VAC organizes ceremonies and events, both in Canada and overseas, to remind Canadians of the legacy of those who served Canada and to demonstrate Canada’s leadership in recognizing their service. VAC works closely with the voluntary sector, quasi-governmental and international organizations, including foreign, regional and local government institutions on commemorative events, including Veterans’ Week and significant military milestones that honour those who made the ultimate sacrifice. VAC assists with burial ceremonies when remains of Canadian soldiers of the First or Second
World War are discovered in Europe. World War and Korean War medals are also issued to recognize Veterans, as is the Minister of Veterans’ Affairs Commendation.

VAC partners with a variety of government departments, non-profit organizations, educational institutions, provincial and municipal governments and corporate entities that share mutual remembrance responsibilities or goals. These mutually supportive arrangements enable VAC to further extend its reach internationally, nationally and in communities across Canada (e.g. The Friends of Vimy in France, National Defence in Canada). VAC provides funding assistance for commemorative projects through the Community Engagement Partnership Fund, the Cenotaph/Monument Restoration Program and the Community War Memorial Program. Public Education and Awareness

Public knowledge is an essential component in honouring and preserving the memory of the achievements and sacrifices of Canadian Veterans and those who died in service. This activity increases knowledge by creating and distributing Canadian military historical and remembrance-related resources, learning resources, as well as promotional products such as posters and pins. Printed materials are distributed free of charge, multimedia and interactive tools are made available on the Canada Remembers website, and social media tools are used to expand our reach. Knowledge and awareness are also fostered by supporting the Historica- Dominion Institute’s Encounters with Canada program, providing interpretive guided tours to visitors at European sites and supporting summer-time guided tours which interpret the National War Memorial and the Tomb of the Unknown Soldier to visitors in Ottawa.

**Soldier Settlement Act and Veterans’ Land Act**

*The Soldier Settlement Act (1919),* administered by Veterans Affairs since 1944, was enacted to assist eligible First World War Veterans to become re-established in civilian life as farmers by providing them with land and/or financial assistance in the form of repayable loans for specified purposes such as the purchase of land, livestock or farm equipment. Benefits have not been available under this legislation for many years and
there are no longer outstanding loans. However, Veterans Affairs Canada continues to respond to general inquiries and/or residual land issues pertaining to the program.

The Veterans’ Land Administration (VLA) was established in 1942 under the Veterans’ Land Act, which was part of a rehabilitation package for returning servicemen to help them settle in Canada as full-time farmers, part-time farmers or commercial fishermen. Assistance was also available to Veterans who wished to act as their own contractors in the construction of their homes.

The VLA program helped approximately 140,000 qualified Veterans to purchase their properties. It also offered below-market interest rates and a flexible repayment schedule. These advantageous interest rates, guaranteed for twenty-five years, provided security to Veterans. Lending under the Veterans’ Land Act ceased in 1977.

Up to June 30, 1992, all matters pertaining to the Veterans’ Land Act were administered by the Veterans’ Land Administration under the control of the Director, Veterans’ Land Act.
